Thomas and Jane were in Virginia by 1643 when he first patented land in Warwick River County on the James River south of the mouth of Waters Creek. Later he took another patent on Waters Creek adjacent to the first and parallel to it. Waters Creek has been dammed up to form Lake Maury. They later patented land on the Peankatanke River. In 1652 he was appointed Justice of the Peace for the Peankatanke area. He then patented land on Morattico Creek in Lancaster County on Virginia's Northern Neck in the early 1660's.
